

ACCESS TO SAMPLES/DATA FOR BASIC AND TRANSLATIONAL RESEARCH (FOR EXTERNALS)

Legend:

Requester
Biobank
Collection Access Committee
Ethics Committee (EC)
Data clearing board

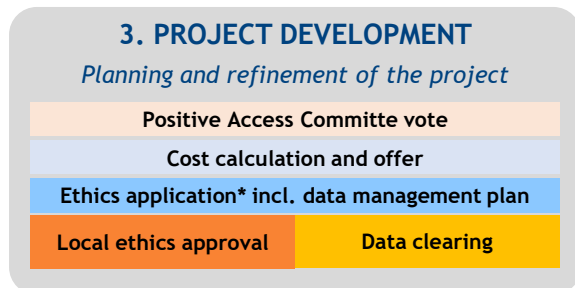

Request

Send us your detailed request (specify needed samples/data/services). In order to access samples, data or services the identity of each new requester will be checked.

Feasibility

BBMRI.at biobanks check, if required samples/data/services are available. Depending on the complexity of the request, a fee might be charged for this service. Biobanks provide feedback on sample/data/service availability.

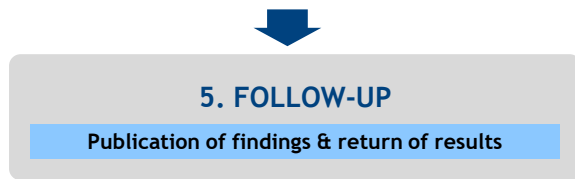

Project Development

The collection access committee decides based on your project application, if samples/data will be provided for your project. After detailed definition of your request, an offer is sent to you. In addition, your project requesting human specimens needs the approval of the ethics committee at the organization that operates the biobank.

Contracting & Execution

Once the contracts (cooperation agreement and/or material transfer agreement (MTA)) are signed, the collaboration using samples/data/services can start.

Follow Up

The publication of your findings shall acknowledge the respective biobank as the source of samples and/or data. Return of results (if applicable).

* For this service a fee might be charged
