

Infrastructure for the Management of Medical and Patient-related Research Data: Upgrade of BBMRI-ERIC

A new concept on how to manage research data is introduced in the BMWFW Brochure "Investing in Europe's Future - Restarting the Growth Engine" which appeared in July 2015

The concept has been submitted as a proposal for the European Fund for Strategic Investments ([Juncker Package](#)), an investment initiative aimed at boosting strategic investments in Europe.

[Learn more about the concept and view the BBMRI article on page 161 >>](#)
