Conception and Implementation of an Austrian Biobank Directory Integration Framework - Apr 2017

(April 2017, Biopreserv Biobank, 2017 Apr 5. doi: 10.1089/bio.2016.0113)

In this paper IT experts from BBMRI.at (i.e. the Medical University of Innsbruck, Medical University of Graz, and the Alpen Adria University) and the BBMRI-ERIC headquarters describe how to tackle the challenges of integrating biobank-related data between biobank directories. They propose to use heterogeneous data schemas and different technical environments.
