

Strong premiere of the movie about biobanks "Golden Gene" in Graz

The subject of genes and biobanks attracted some 100 visitors to the premiere documentary film "Golden Gene" to the KIZ Royal Cinema on 4th November, 2016. The film team and the protagonists from BBMRI.at, Kurt Zatloukal (pathologist and biobank expert at the Med Uni Graz) and Berthold Huppertz (director of Biobank Graz, one of the largest biobanks in Europe), attended as well.

After the showing Kurt Zatloukal and Anna Durnová (both from BBMRI.at) responded in a panel discussion to questions from the moderator and the audience.

The film was also very well attended in Vienna, where the premiere took place on October 6, 2016.
