

"Joining Forces for Personalized Medicine"

Under the motto "Joining Forces for Personalized Medicine" the 2. Annual Meeting of the Austrian Platform for Personalized Medicine (ÖPPM) will take place at the New Campus of BBMRI.at partner Medical University of Graz.

The interdisciplinary scientific program there will be complemented by a public panel discussion under the title "Personalized Medicine - Who or what is in focus?".

BBMRI.at, Biobank Graz and BBMRI-ERIC will inform participants in presentations, posters and at a booth about its work. Moreover, conference attendees are invited to a guided tour through Biobank Graz and the BBMRI Expert Center CBmed

The ÖPPM is a national networking platform set up on the initiative of the former Federal Ministry of Science, Research and Economy in 2017. It aims to connect all stakeholders in the field of personalized medicine and to promote the subject of personalized medicine. In the first year of its existence, the platform was able to gain over 100 institutions and individuals as members.
