

BBMRI Workshop on Trusted Research Environment

Oct 2021

As initiated by BBMRI.at, the Biobanking Research Infrastructure headquarters BBMRI-ERIC is organizing a virtual workshop on "Building a Trusted Research Environment". The event will open the discussion on creating Trusted Research Environments (TREs) for data-sharing in health research.

When: Monday 18th October 2021, from 9 to 12 am CEST

The workshop aims at outlining the current landscape and contexts, providing new focus for national nodes and patients' organizations and showing examples of good practice in developing and using Trusted Research Environments.

The event is particularly addressing BBMRI-ERIC's Stakeholder Forum Patients Pillar and designated members from National Nodes:

Invited as participants are patient advocates, representatives from national patients' organizations, biobankers and BBMRI National Node from the BBMRI-ERIC members states

Among the chairs and speakers are Prof. Kurt Zatloukal (BBMRI.at Director; Med Uni Graz) and Prof. Ulrike Feld (BBMRI.at Work Package Leader for "Responsible Research & Innovation"; Uni Wien).

AGENDA

9.00-9.15	Welcome Richard Stephens, Chair of BBMRI-ERIC's Stakeholder Forum Kurt Zatloukal, National Node Director BBMRI.at
9.15 - 9.40	Methodological issues about Trusted Research Environments Ulrike Feld, University of Vienna (Austria)
9.40 - 10.20	A bio-ethical and legal dialogue Dorota Krekora-Zajac, University of Warsaw (Poland) Giovanni Boniolo, University of Ferrara (Italy)
10.20 - 10.30	Q&A
10.30 - 10.40	Break
10.40 - 11.00	Contribution and experience Angelo Loris Brunetta, Thalassaemia International Federation and Italian Foundation 'L. Giambrone' for the cure of Thalassaemia and Sickle-cell disease (FITHAD)
11.00 - 11.40	Psychological and bio-informatics inputs Kalypso Iordanou, University of Central Lancashire (United Kingdom and Cyprus) Esther van Enckevort, University Medical Center, Groningen (the Netherlands)
11.40 - 12.00	Q&A and concluding remarks
