

Biobank Graz joins BC Platforms Global Data Partner Network to advance ...

April 2020

Biobank Graz is now listed in BC Platforms' data and technology platform for personalized healthcare "BCRQUEST.com", a platform and its supporting framework enable collaboration between pharmaceutical institutions, healthcare and academic researchers to generate valuable insights and advance medical research.

Dr. Christian Güllý, COO, Biobank Graz, Medical University of Graz, Austria, commented, "We are excited to be collaborating with BC Platforms to securely share our data for the benefit of patients without compromising any privacy issues. We have been impressed by the BCRQUEST.com platform and its ability to analyze, integrate and share data in a secure manner and in line with the European General Data Protection Regulation (GDPR) to support researchers in developing personalized medicines."
