

FREE WEBINAR

"Biological Samples in Biobanks – Types, Quality, Management and Gains for your Business/Research"

9 March 2021

Get an overview of the role of Biobanks managing biospecimens to improve biomarker development.

In the context of the Codex4SMEs project, BBMRI.at partner biobank Graz holds a webinar.

- When: 9 March 2021, 14:00-15:00 CET
- Speaker: Pablo Zardoya Laguardia, (Med Uni Graz, Biobank Graz)

AGENDA

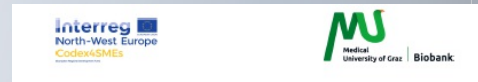

Biobanks play a key role in finding biomarkers that help to improve healthcare by adopting personalized medicine. During this webinar, you will learn about the types of samples that biobanks store and some analyzing methods, stages of sample processing, factors influencing the sample quality on the different stages, management of these samples by biobanks and the benefits you get of using these samples from a Biobank
