Precision Diagnostics Europe 2021 Conference
25-28 May 2021

End of May, the first European meeting on Precision Diagnostics will take place in a virtual format. World-leading experts within precision medicine will join us during three days of presentations and live discussions on precision medicine.

Main topic are quality aspects of molecular analysis and diagnostics required for Precision Medicine and Personalized Therapies.

REGISTRATION until 30 April 2021 [here >>](#)
PROGRAMME [>>](#)

Among the speakers:

Kurt Zatloukal, BBMRI.at Director and SPIDIA4P work package leader, from Med Uni Graz, on the topic "Pre-analytical requirements for in vitro diagnostic medical devices"

The conference is arranged by Tataa Biocenter as the final meeting of the European Union financed project SPIDIA4P.

Joining in are experts in international standardisation for in-vitro diagnostics from industry, public institutions and the European Standards Organisation, CEN.
