

APPLY NOW ! – "MSc (CE) Biobanking" at Medical University of Graz

Given the extensive international growth of biobanks, it is necessary to provide training for experts in the field of biobanking and its related disciplines. This university course is designed to address this development and provide expertise on the structure, management, equipment and challenges of biobanking, as well as networking opportunities. Aim of the course is to acquire knowledge, skills and competences that enable students to work in the multidisciplinary field of Biobanking.

Next course is planned for winter semester 2022 - register now and fix your place!
