Register now: EBW IT Roadshow on "Data Integration in Biobanking"

Innsbruck (Austria), 27 - 28 September 2023

The two-day EBW23 Roadshow IT conference is co-organized and hosted by BBMRI.at partner Medical University of Innsbruck. Don't miss to hear about IT integration of health & biobank data, data extraction from various health-data sources, and data management and transfer between various platforms.

The EBW23 IT is directed at biobank and healthcare professionals as well as IT specialists from life science and industry representatives looking at collaboration with biobanks. It will offer insights to the latest advancements in biobanking and IT, including new software technologies and approaches to health data management.

Register now for this great opportunity to learn about biobanking and IT innovations and discuss the topics with other experts in the field!
